

TECHNOCEL® 2500

Product description:

Functional filler of highly pure cellulose

Characteristic	Value	Unit
Appearance	• white fibre	
Cellulose content	• ca. 99	%
Loose density	• > 35	g/l
Loss on drying	• <10	%
pH-value	• 5,0 –7,5	

Screen analysis (Alpine Air Draught Sieve)

smaller than 2500 µm	• > 98	%
smaller than 800 µm	• > 30	%
smaller than 32 µm	• > 5	%

Applications

All **TECHNOCEL®** products are totally harmless from the environmental as well as industrial medicine point of view and they are all made from renewable resources.

The technical functions in the different applications are mainly thixotropic, armouring and adsorbing. Furthermore **TECHNOCEL®** is used as carrier and filler.

The data given on this sheet is based on test results believed to be representative of the product and should not be interpreted as a binding specification.
